Remedy this unpleasant evil, by eating nourishing food, and taking a small dose of Herbine after each meal, to digest what you have eaten. 50c at Chas. C. Davis' drugstore.

All thro' the trees afar I tread my way, I have not grace,

"I want you so!"

I have not tears in my eyes From green earth are blue of skies,

And I still hear as once I heard, The splash of stream and song of

The bill prescribing a form of government in the Philippines, as reported in the Senate Monday by Senator Lodge, provides that the commission may establish popular representative government in the islands so far and so fast as the communities show their capability. As soon as complete peace shall have been established a census is to be taken showing the capacity of the inhabitants for self-government. The Philippine Government is authorized to establish a mint at Manila, and any owner of silver bullion of the value of \$100 or more may deposit the same for coinage into dollars containing 416 grains. The silver dollar is made the legal tender in the islands.

REPRESENTATIVE TALBERT, of South Carolina, paid Mr. Roosevelt a deserved compliment on his having vetoed several bills intended to clear the military record of men who deserted the United States army during the Civil War, when he said, in a short speech in the House: "I am glad to see that the Chief Executive has come to my assistance in the roll of honor which is given by deserters in the Civil War with the President. I am glad to see that in this matter he has stood against the popular and conservative bills for

DEMOCRATS OR REPUBLICANS charged with the task of investigating the claim of Capt. Christensen, of Denmark, that Abner McKinley's law firm had engaged in bribing Congressmen and newspapers in connection with the negotiations for the purchase of the Danish West Indies, will see that the investigation is not a whitewashing affair. It is not the first time that Abner McKinley's man has been connected with scandal.

EVERYBODY will have to agree that there is such a thing as a good trust, now that the National Trust for Places of Historic Interest and Natural Beauty has been incorporated by a number of patriotic ladies and gentlemen of Washington. The objects of this trust are to look out for and preserve places of historic interest to take care of the beautiful natural parks of the country to prevent their disfigurement or destruction either by vandalism or commercialism.

THE height of absurdity would seem to have been reached when the Attorney General was asked to render an opinion as to whether club-women can constitutionally discriminate on account of color. It has always been our idea that a club was a private affair and that its members could and did discriminate against anybody and for any reason that they pleased, even casting blackballs for no reason at all save individual aversion or prejudice.

HON. JAMES M. GRIGGS, of Georgia, who was unanimously chosen for chairman of the Democratic Congressional Campaign committee, is believed to be just the man for the place, and great things are being predicted of his management. No committee has started with more confidence of electing a majority of the House than this one now has.

MEMBERS of the G. A. R. who have for several years been fighting Pension Commissioner Evans, are wondering what they gained by his resignation, now in the hands of Mr. Roosevelt, since the latter has publicly said that the change is only to be in the head of the Pension Bureau and not in its policy.

"OLD HICKORY" CHIPS.

(By Our Associate Editor.)

Now that King Eddy has decided to pay for a coronation dinner to the poor of London, his personal creditors are hoping to get some cash from the same source.

The Hatfields are still killing revenue officers, in the mountains of Pike County, Ky., and getting killed. The last engagement resulted in two dead on each side.

Teddy and Speaker Henderson are said to have formed a trust to hold up in the House such legislation as they do not approve until after the Congressional election.

Hanna has been again denying that he is a candidate for the Presidency. Of course, he isn't; it is only an amateur, like Teddy, who would acknowledge his candidacy this far ahead.

The Panama lobby doubtless stands ready to contribute several millions to a Hanna campaign fund if Hanna can succeed in his efforts to head off the Nicaragua Canal bill in the Senate.

It will require some time for the country to get accustomed to the republican theory that the commander of the army has no business to have or express opinions on military matters.

Abner McKinley might stop riding around in private parlor cars long enough to answer a few questions asked by the Congressional committee that is investigating the Capt. Christmas bribery story.

Is it because he is such a bitter anti-States' rights man, or because the scheme can be better manipulated by the republican bosses under Federal control that Mr. Roosevelt opposes State control of irrigation canals?

If Senator Burton acts upon the request of those Kansas G. A. R. men and protests to the President against the promotion of Pension Commissioner Evans, he will establish a new record for meddling impudence.

Teddy has changed his mind about kicking Terry Powderly out of a job. As soon as he learned that Terry still had a pull he announced that it was his intention to give him "something just as good" as his present place.

The famous battlefield at Busaco, Portugal, where the Duke of Wellington licked the French army in 1810, has been turned into golf links. Portugal would seem to be in need of a society for the preservation of historic places.

Commissioner Evans will lose his job, but it must be as comforting to him as it is irritating to the pension ring that has hounded him to know that Mr. Roosevelt has declared that the Evans policy shall be continued by the new head of the Pension Bureau.

The Easter storm is, and seems to have come to stay. I guess there were very few young ladies who had the pleasure of showing off their Easter hats. I can remember when Easter was called "show day" at the churches and if it happened to be an unfavorable day for showing off fine clothes, there would be weeping and wailing among the feminine sex, but I think with all our colleges and schools, women, these days should go to church with a higher motive than to show off their fine clothes.

The body of Mrs. D. G. Holman, arrived here Tuesday from Mobile, Ala. She was Miss Capitol Slaughter of this place. TOO much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Deranged menses, leucorrhoea and falling of the womb result from overwork. Every housewife needs a remedy to regulate her menses and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:

Glendale, Ky., Feb. 10, 1901.
I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help, and I washed last week and was not at all tired. That shows that the Wine is doing me good. I am getting fleshier than I ever was before, and am very good and eat well. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent treatment for it, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and that only temporarily, that the head noise would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment.

After I had used it only a few days, I began to follow your directions, the noise ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily, and beg to remain

ALL FOOLS' DAY.—For nearly two thousand years, according to accounts handed down to us, it has been customary on the 1st day of April to make fools of people if they can. It has been considered right and even laudable to send them on all kinds of bootless errands. The victim thus entrapped is called an April fool. This custom obtains in England, Scotland, France and India, as well as in all parts of the United States. Poor Robin wrote this couplet in his almanac two hundred and forty years ago:

"The first of April, some do say,
Is set apart for All Fools Day."

The authority for Christian people perpetrating jokes on their friends on this day, is found in the Bible in the prophecy of Malachi.

WILL BECOME A LAW.—State Senator George T. Farris says the general impression prevailing that the missing Registration Bill had not been signed by the President of the Senate is probably erroneous. He says the bill passed both houses, was signed by Speaker Finn and was reported back to the Senate for comparison, where he is of the opinion it received the signature of President Utley. Mr. Farris says the disappearance of the bill delays, but will not defeat the measure, which, he believes will ultimately become a law.
